

Economics

Learning
Society

Sustainability

What?

An exclusive international participatory and exploratory work shop on three major futures topics: **Economy, Learning Society and Sustainability.**

The Speakers

Top-level futurists who will identify what kind of changes there will be in a global landscape and how this knowledge could be used in strategic management.

Who Should Attend?

People interested in and responsible for building their respective futures, making sense of the appropriate strategies and leadership interventions.

Aalto University
School of Science
and Technology

Horizons

A Discovery and Exploratory Work Shop
on shaping the Future

Thursday 17.6.2010 at 9:00-13:00
Pörssitalo, Helsinki

Programme

- 8.00 REGISTRATION & EARLY MORNING GET TOGETHER
Breakfast buffet
- 9:00 **Long Term Growth**
Director Stefan Bergheim, Center for Progress
- 10.30 **21st Century Learning Society**
Principal Riel Miller, xperiodix
- 11:45 **Top-down and Bottom-up Approaches to Sustainability**
Professor Eve Mitleton-Kelly, London School of Economics
- 13.00 *END of the DAY*

Facilitated by Mika Aaltonen,
Aalto University School of Science and Technology.

The workshop Navigators

Stefan Bergheim has been the director of the Center for Progress since the beginning of 2009. Before launching the Center, he worked for leading international banks such as Merrill Lynch and JPMorgan in Frankfurt as an economist. Between 2002 and 2008, he worked for Deutsche Bank Research on topics such as growth, demographics, education and happiness. Stefan has a diploma in economics from Saarbrücken University, spent three years in the economics Ph.D. program at the University of Oregon (USA) and holds a doctoral degree from WHU in Koblenz/Vallendar, where he wrote the book "Long-run growth forecasting".

Riel Miller is a specialist in long-run strategic thinking, foresight theory and practice. As a global foresight design consultant he works closely with clients to develop and implement state-of-the-art action-research and strategic decision making processes. For over twenty-five years his work has concentrated on how to assess and direct the potential for socio-economic transformation in the private and public sectors. Between 1995 and 2005 Riel worked as a Principal Administrator in the International Futures Programme at the OECD.

Eve Mitleton-Kelly is Founder and Director of the Complexity Research Programme at the London School of Economics; Visiting Professor at the Open University, UK; Coordinator of Links with Business, Industry and Government of the European Complex Systems Network of Excellence Existence; Executive Coordinator of SOL-UK; and Advisor to European and US organizations. Eve Mitleton-Kelly's recent work has concentrated on the application and the implications of the theories of complexity for organizations and specifically on strategy.

Mika Aaltonen is a Ph.D. (Economics), Fellow of the Royal Society of Arts in London, Board Member of the European Regional Foresight College in Paris, and Member of the Millennium Project in Washington. He is also Head and Chairman of the Board of StraX (the research unit for strategic intelligence and exploration of futures) at Aalto University School of Science and Technology and CEO of the Research and Analysis Corporation of Finland.

Receive as material
the new book, Robustness!

Register

* online by filling out the form

https://eage.tkk.fi/index.php?subject/new/TAPAHTUMA_27585_horizons

* or by email to strax@tkk.fi (full name of participant, organisation and invoicing address with references).

E-payment or invoice upon registration.

The seminar fee is 100 EUR (VAT 0 %)

Cancellations

after 10.6.2010 the whole fee will be invoiced.

The seminar page: www.strax.tkk.fi

The Venue

Pörssi-Sali, Ravintola Pörssi, Fabianinkatu 14

Welcome!

Horizons is a StraX project (Research Unit for Strategic Intelligence and Exploration of Futures at the BIT Research Centre) funded by Tekes Renewable Industry programme.

Horizons brings together top-level futurists to identify the changes in the global landscape and to discuss how this knowledge could be used in strategic management. The insights will especially benefit the manufacturing industry but can also be applied to a far broader range of organizations.

The workshop is organized by StraX in cooperation with [Pertec Consulting Ltd.](http://www.pertec.com)
